

FXROBOTICS

About Us

Force X Robotics is a new robotics team comprised of High School Students based in Westport, CT. Although this is our first year as a team, we have previous robotics experience. We run outreach events such teaching kids computer science in India and compete in FIRST's FTC league in Connecticut. Your sponsorship will help us defray costs for parts, community outreach, competition registration, and possible travel. Different levels of sponsorship also bring certain benefits such as promotion of your business on our website, team t-shirt and jacket, on our robot, and on our display booth (displayed at all events and in media coverage). Regardless of level, you will be promoted on our social media.
